8. It would be better to increase the content and depth of the syllabus in several branches of chemistry since it plays a vital role as a core subject.The students who would like to pursue a master degree would prefer a extensive method of learning new things about the syllabus than to have a minimum portion.....for better understanding
9. My department is very good but in my suggestion for upcoming years if there is a project for the final years it must be helpful for those who intrested to study PG . Otherwise those who are interested in doing project kindly guide them. THANK YOU
10. The syllabus is up to the mark. so the syllabus can be retained. The industrial visits and the interships are not enough. All the staffs handling are good enough to provide knowledge to us.

## Comments:

- every department should make project work compulsory in final semester especially physics department
- We have only limited number of books available for us to take in the library it will be good if we have access to majority of the books .
- The syllabus of allied subjects can be developed according to the core subjects
- Improve communicative ENGLISH update the syllabus as per the current scenerio and requirement if possible reduce the number of core papers for physics major give more importance to practical computer classes.
- Update Syllabus based on advanced technology. Reduce major in physics.
- UPDATES IS NEEDED FOR EVERY SUBJECT,I FEEL THERE IS NO CONTINUITY IN THE SYLLABUS AND IT MUST BE TAKEN TO THE NEXT LEVEL SO THAT IT WOULD BE HELPFUL IN ATTENDING EXAMS
- MAY YOU ENCOURAGE POOR STUDENTS THROUGH OTHERS STUDIES FACILITIES IT MAY HELP THEIR FUTURE UNDERSTANDING THE SUBJECT THROUGH THE PROFESSORS IS MAY BE IMPROVED
- There is not enough books for related subject in library.
- Kindly update the core paper with much more advanced concepts. Include SBE and NME papers which will be helpful for competitive Examinations.
- There should be a lot of project works and sessions regularly about the scope of the subjects. The knowledge about the various fields regarding the subject can be explained to the students.
- Improve the syllabus and conduct regular tests daily.
- NICE COLLEGE NICE STAFF
- PROVIDE MORE BOOKS IN THE LIBRARY FOR THE STUDENTS TO GAIN THEIR KNOWLEDGE

## Comments:

1. In Molecular Biology Syllabus can be modified according to NET Exam Syllabus
2. MOLECULAR BIOLOGY SYLLABUS CAN CHANGE
3. GIVE MORE TIME TO DO PROJECT ... TRY TO START FROM THE THIRD SEMESTER ONWARDS IT COULD BE MORE HELPFUL TO GIVE RELEVANT AND DEP INFORMATION OF PROJECT.
4. INTENSHP PROGRAMS AND INDUSTRIAL VISITS AND CAMPUS INTERVIEW PROGRAMS ARE INCLUDED
5. please taking students to the field visit and industrial visit.
6. provide campous interview , provide internship program
7. PROVIDE SOME CAMPUS INTERVIEW TO OUR GENERATION FROM RESEARCH INST.SUCH AS TISSUE CLUTURE JOBS LIKE WISE.PLZ IMPROVE LAB FACILITIES FOR MOLECULAR STUDIES
8. The syllabus should be somewhat advanced .Then only It will be easy for all the competitive exams like net/set etc. Also I would like to say that project can be start in third semester itself so that we can easily complete the project without stress and it will be an effective one.
9. Our overall syllabus is very good and I am giving my suggestion that to improve our syllabus more to face CSIR NET preparation and to clear it with a good rank. And having our taxonomy of angiosperms at the final semester seems very difficult for us and please try to replkace it on some other semester.
